# Our projects and Ecosystems

**At the beginning, we were special.**

**Total supply: 1000,000,000,000,000** The dev abandoned all permissions and permanently blocked the pool in the black hole. There was no mechanism. We worked hard to stick to the consensus in a community with strong consensus.

**In June, when the digital currency was turbulent, we were born. Our goal is to have a strong Dao Community and the future of blockchain. We will soon have an independent NFT and cat swap tool will be released. A strong group will soon be born. Let's wait and see.**
